PRAJAPATI RAJ (+91 7990907130)

Email: pr683027@gmail.com | **GitHub :** https://github.com/Rajprj/

Career Objective:

Aspiring full-stack developer with a strong foundation in web technologies and a passion for building scalable and user-friendly web applications. Dedicated to continuous learning and contributing to impactful projects.

Education:

Bachelor of Science in Information Technology (CA & IT)
Ganpat University, Gujarat | [2025]

Work Experience:

Xceltec Interactive Private Limited   (JAN'25 - APR'25)

Technologies: AngularJS, NodeJS, ExpressJS, SQL, MySQl
MarineCP: Led the development of a marine charter party platform, enabling users (owners, charterers, brokers, admins) to trade and draft contracts. Worked on both admin and user web apps, handling frontend, backend, and API development and deployment on server.

Projects:

Full-Stack Projects

Frontend Market Place

- **Description**: A community-driven platform for frontend developers to share their projects and collaborate with others.
- **Technologies Used**: ReactJs, NodeJS, ExpressJS, MongoDB (Backend).
- **Key Features**:
    - Code sharing and project management tools.
    - User authentication and role-based access for developers and viewers.
    - A future roadmap to include real-time chat, paid posts, and pictures uploads.

- **Role**: Designed and implemented the frontend ReactJs. Built the backend using NodeJS, ExpressJS, and MongoDB to handle user data and project management.

Frontend Projects

1. E-commerce Website

- **Description**: Developed a fully functional e-commerce website to facilitate online product browsing and purchasing.
- **Technologies Used**: HTML, CSS, JavaScript, Bootstrap.
- **Key Features**:
    - Responsive layout for a seamless user experience on mobile and desktop.
    - Interactive product listing and cart functionality.
    - Clean and modern UI design with Bootstrap components.
- **Role**: Designed the UI/UX and implemented the core frontend functionality using JavaScript.
- **Live Demo:** https://rajprj.github.io/Ecommerce-web/

2. IT Agency Landing Page with Animations

- **Description**: Created a professional and visually appealing landing page for an IT agency, showcasing their services with engaging animations.
- **Technologies Used**: HTML, CSS, JavaScript, GSAP.js, Locomotive.js.
- **Key Features**:
    - Smooth scrolling and dynamic animations using GSAP.js and Locomotive.js.
    - Modern design with a focus on branding and service highlights.
    - Fully responsive design to ensure compatibility across all devices.
- **Role**: Focused on animation and smooth navigation to enhance the overall user experience.
- **Live Demo:** https://rajprj.github.io/gsap/

Skills:

- **Frontend**: HTML, CSS, JavaScript, Bootstrap, TailwindCSS, ReactJs, AngularJs
- **Backend**: NodeJS, ExpressJS
- **Database**: MongoDB, MySQL
- **Other**: Responsive Web Design, Full-Stack Development
